Hot Hair Roller

Category: **Beauty, Wellness & Fitness** Type: **Full SOP** Priority: **High** 2 labs

Covers these lab items: Hot rollers with pins

What it is used for

Hot hair rollers use heated rollers to shape curls or waves in hair. Select suitable roller sizes and temperature, handle heated parts carefully, and follow the manufacturer's timing instructions.

Main parts

- Heated roller set and heating base
- Individual rollers in different sizes
- Roller clips or pins
- Power switch and temperature controls, if fitted
- Power cord and plug
- Heat-resistant storage case or holder

Before you start

1. Inspect the heating base, rollers, clips, cord, and plug for damage.
2. Place the heating base on a stable, heat-resistant surface.
3. Check that rollers are clean and suitable for the intended hairstyle.
4. Confirm the rollers are compatible with the heating base.
5. Prepare dry or appropriately prepared hair according to the product instructions.
6. Keep water, sprays, and flammable styling products away from hot surfaces.

How to use

1. Connect the heating base to a suitable electrical outlet.
2. Switch on the base and allow the rollers to heat as instructed.
3. Select roller sizes according to the desired curl or wave.
4. Use suitable heat protection if recommended for the client's hair.
5. Lift one small section of hair and position the roller at the end.
6. Roll the hair evenly without pulling excessively on the scalp.
7. Secure the roller using the supplied clip or pin.
8. Repeat with manageable sections while keeping heated rollers away from the skin.
9. Allow rollers to remain in place for the recommended time.
10. Remove clips and unwind each roller gently without pulling the hair.
11. Switch off and unplug the heating base after use.
12. Allow rollers to cool completely before cleaning or storage.
13. Store rollers and clips in their designated case after cooling.

⚠ Safety

- Use only rollers and accessories compatible with the heating base.
- Avoid direct contact between hot rollers and scalp, ears, neck, or fingers.
- Do not use damaged cords, cracked rollers, or faulty heating bases.
- Keep the heating base away from water and flammable materials.
- Do not leave the heating base switched on unattended.
- Unplug the base before cleaning or handling electrical parts.

Care & storage

- Allow all rollers to cool before cleaning.
- Remove hair and product residue using the approved cleaning method.
- Keep electrical contacts and the heating base dry.
- Inspect clips, rollers, and cord regularly for wear or damage.
- Store the set in a dry location away from children.

Common mistakes to avoid

- Using rollers before they reach the recommended temperature.
- Wrapping hair too tightly and pulling on the scalp.
- Touching hot rollers directly or placing them on an unprotected surface.
- Storing rollers while still hot or leaving the base powered on.
