Paper Shredder

Category: **Computers, IT & Office** Type: **Short SOP** Priority: **High** 4 labs

Covers these lab items: Paper Shredders

What it is used for

A paper shredder cuts documents into smaller pieces to protect confidential information and support secure disposal. Use only the paper types and quantities permitted by the shredder manufacturer.

How to use

1. Inspect the shredder, power cord, waste bin, and feed opening for damage or obstruction.
2. Place the shredder on a stable surface and ensure the waste bin is correctly fitted.
3. Switch on the shredder and select the required operating mode.
4. Remove clips or staples unless the manufacturer confirms they are supported.
5. Feed paper slowly within the specified sheet capacity and keep documents straight.
6. Allow the shredder to finish cutting and use reverse mode only as instructed if a jam occurs.
7. Switch off and unplug the shredder before clearing a persistent jam or emptying the bin.
8. Close the bin and switch off the shredder after use.

⚠ Safety

- Keep fingers, hair, jewellery, and loose clothing away from the feed opening.
- Never insert hands into the cutting area, even when the shredder appears stopped.
- Do not exceed the rated sheet capacity or shred prohibited materials.
- Unplug the machine before maintenance or clearing a jam as directed.

Care & storage

- Empty the waste bin before it becomes overfilled and causes a blockage.
- Clean accessible surfaces and maintain the cutting mechanism according to the manual.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
