Fuel

Category: **Automotive** Type: **Handling note** Priority: **High** 3 labs

Covers these lab items: Petrol/diesel

What it is used for

Petrol and diesel are fuels used in compatible engines and equipment and require strict fire and spill precautions.

How to handle

- Confirm the correct fuel type and use approved, compatible containers and transfer equipment.
- Keep away from flames, sparks, smoking, and hot surfaces; shut down equipment before refuelling when required.
- Work in a well-ventilated area and avoid inhalation, skin contact, and fuel spills.
- Clean spills using the approved procedure and report leaks immediately.

Storage

- Store in approved, clearly labelled fuel containers in a designated, ventilated area away from ignition sources.
- Follow applicable fire-safety, quantity, and separation requirements.
