Covers these lab items: All Propose Comb; All Purpose Comb; Back comb; Bath Comb; Comb; Hair Cutting Comb; Large Tooth Comb; Tail Comb; Tail Comb, cutting comb; Vent Dressing comb; Wide Toothed Comb

What it is used for

A comb separates, arranges, and styles hair for grooming or salon work. Select a comb type suitable for the hair texture and intended styling task.

How to use

1. Inspect the comb for broken teeth, sharp edges, or cracks.
2. Select a clean comb appropriate for the hair type and styling method.
3. Prepare the hair and work area according to the grooming procedure.
4. Hold the comb securely and work gently from the ends toward the roots when detangling.
5. Use the appropriate comb technique for parting, cutting, backcombing, or styling.
6. Avoid pulling the hair or scratching the scalp.
7. Clean and disinfect the comb between clients according to salon hygiene procedures.
8. Dry the comb and return it to clean storage.

⚠ Safety

- Do not use a cracked comb or one with sharp broken teeth.
- Avoid excessive pulling that may damage hair or irritate the scalp.
- Do not share unclean combs between clients.
- Keep combs away from heat sources unless designed for heat exposure.

Care & storage

- Remove trapped hair and wash the comb after use.
- Disinfect reusable combs as appropriate and store them in a clean, dry container.
