Safety Goggles

Category: **Safety & PPE** Type: **Short SOP** Priority: **Medium** 28 labs

Covers these lab items: Goggles; Safety glasses; Safety Goggle; Safety goggles

What it is used for

Safety goggles protect the eyes from specified hazards such as flying particles, splashes, or dust. Select goggles suitable for the task and ensure they fit securely before work begins.

How to use

1. Check the lens, frame, strap, and seals for cracks, scratches, or damage.
2. Confirm that the goggles are rated for the task hazard.
3. Clean the lenses with an approved method before wearing them.
4. Position the goggles securely over the eyes and adjust the strap for a proper fit.
5. Check that the goggles provide suitable coverage and do not obstruct vision.
6. Wear them throughout the task and replace them if damaged or visibility becomes poor.
7. Remove goggles carefully and clean or store them after use.

⚠ Safety

- Do not use cracked, badly scratched, or unsuitable goggles.
- Do not assume ordinary glasses provide the same protection as safety goggles.
- Use additional face or respiratory protection when the task requires it.
- Keep goggles on while the hazard remains present.

Care & storage

- Clean lenses using suitable materials to avoid scratches.
- Store goggles in a clean protective case away from heat and chemicals.
