Rake

Category: **Agriculture & Gardening** Type: **Short SOP** Priority: **Medium** 14 labs

Covers these lab items: Garden Rake; Leaf Rake; Leaf Rake with Handle; Rake

What it is used for

Use a rake to collect leaves, level loose soil, or gather garden debris according to the rake type.

How to use

1. Choose a rake suited to leaves, soil, or garden debris.
2. Inspect the handle, head, and teeth for cracks or looseness.
3. Clear people and obstacles from the working area.
4. Hold the handle firmly with both hands and keep a balanced stance.
5. Pull the rake toward you using controlled strokes without twisting your back.
6. Collect the gathered material and place it in the designated area.
7. Clean the rake after use and check it for damage.

⚠ Safety

- Wear closed shoes and gloves while working.
- Keep rake teeth pointed away from your body and other people.
- Do not leave the rake on a walkway with its teeth facing upward.

Care & storage

- Remove soil and plant debris before storage.
- Store the rake securely with its teeth protected.
