Seam Ripper

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 8 labs

Covers these lab items: Seam ripper

What it is used for

Use a seam ripper to remove unwanted stitches or open seams without unnecessarily damaging the fabric.

How to use

1. Inspect the seam ripper tip, blade, handle, and protective cap for damage.
2. Place the fabric on a flat, well-lit surface.
3. Identify the stitches to remove and keep the fabric supported.
4. Slide the pointed end beneath a stitch and cut carefully with the blade.
5. Remove loose threads gradually without pulling or tearing the fabric.
6. Check the fabric for accidental cuts and finish removing thread fragments.
7. Cover the tip and store the tool after use.

⚠ Safety

- Keep fingers away from the sharp blade and cutting path.
- Cut stitches away from your body where practical.
- Do not use a bent or damaged seam ripper.
- Keep the protective cap on when the tool is not in use.

Care & storage

- Remove loose threads from the blade and handle after use.
- Store with the tip covered in a dry sewing kit.
