Tweezers

Category: **Hand Tools - Fastening & Gripping** Type: **Short SOP** Priority: **Medium** 7 labs

Covers these lab items: Bent neck, metallic Tweezer; Sharp pointed tweezers; Tweezer; Tweezers

What it is used for

Use tweezers to grip, hold, or position small objects that are difficult to handle safely with fingers.

How to use

1. Select tweezers with a tip shape suitable for the object and task.
2. Inspect the tips and arms for damage, misalignment, or contamination.
3. Clean the tweezers before use, especially for laboratory or healthcare tasks.
4. Grip the object gently without applying excessive pressure.
5. Keep the tips directed away from your eyes and other people.
6. Place the object in the required position and release the tweezers carefully.
7. Clean and store the tweezers after use.

⚠ Safety

- Keep sharp tips away from eyes and skin.
- Use suitable protective equipment when handling hot, contaminated, or hazardous items.
- Do not use damaged or contaminated tweezers for delicate work.
- Use separate, clean tweezers when required to prevent cross-contamination.

Care & storage

- Clean and dry the tips after use.
- Store in a protective case to prevent tip damage and contamination.
