Bar Tool

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 6 labs

Covers these lab items: Bar tool kit; Cocktail Shaker

What it is used for

Use a bar tool kit or cocktail shaker to prepare and mix beverages according to the approved recipe and service procedure.

How to use

1. Inspect the shaker, jigger, strainer, spoon, and other tools for damage or residue.
2. Wash and sanitize food-contact tools before preparing a drink.
3. Measure ingredients using the recipe and appropriate measuring tool.
4. Add ingredients to the shaker only when the recipe calls for shaking.
5. Secure the lid and shake with controlled movements away from other people.
6. Strain or pour the drink into the correct serving vessel.
7. Clean, dry, and return the bar tools to storage after use.

⚠ Safety

- Keep glassware and sharp tools away from the edge of the work surface.
- Do not shake a damaged or poorly sealed container.
- Use clean ice and ingredients handled according to food safety rules.
- Follow workplace policies and legal requirements for beverage service.

Care & storage

- Wash and sanitize reusable tools promptly after use.
- Store tools dry and keep measuring equipment free from residue.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
