Decanter

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 6 labs

Covers these lab items: Decanter Large; Decanter Small

What it is used for

Use a decanter to transfer, serve, or temporarily hold suitable liquids in a clean container designed for that purpose.

How to use

1. Inspect the decanter for cracks, chips, residue, or an unstable base.
2. Wash and dry the decanter before filling it.
3. Confirm the decanter material is suitable for the liquid being handled.
4. Pour the liquid slowly using a stable grip and avoid overfilling.
5. Place the decanter on a level, stable surface away from edges.
6. Pour or transfer the contents carefully when required.
7. Empty, wash, and dry the decanter after use.

⚠ Safety

- Do not use cracked or chipped glass decanters.
- Keep the decanter away from children, walkways, and unstable surfaces.
- Do not use a decanter for chemicals or food unless it is approved for that purpose.
- Handle hot liquids only in a container rated for the temperature.

Care & storage

- Wash with a suitable cleaner and rinse thoroughly.
- Store dry in a secure place where it cannot tip or break.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
