Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 6 labs

Covers these lab items: Cuticle knife, Buffers, Pedicure rasp (hard skin removal), Nail scissors, Clippers, Hard skin remover, nipper (for pedicure); Manicure Set; Pedicure Set

What it is used for

A manicure pedicure kit is used to clean, shape, and care for fingernails, toenails, and surrounding skin. Select tools according to the treatment and hygiene requirements.

How to use

1. Inspect all tools for cleanliness, damage, rust, and sharp edges.
2. Wash hands and clean the client's hands or feet before treatment.
3. Disinfect or sterilize reusable tools according to the tool type and salon protocol.
4. Use clippers and scissors carefully to trim nails without cutting too deeply.
5. Use files, buffers, and cuticle tools gently; avoid cutting living skin.
6. Clean and process tools after use, then store them in a clean container.

⚠ Safety

- Use clean tools for every client and never share unprocessed instruments.
- Do not cut cuticles deeply or use sharp tools on irritated skin.
- Avoid treatment on open wounds or signs of infection; follow salon procedures.
- Handle sharp nippers and scissors carefully to prevent cuts.

Care & storage

- Clean, dry, disinfect, and store tools according to the manufacturer's instructions.
