Public Address System

Category: **Audio-Visual, Camera & Media** Type: **Short SOP** Priority: **Medium** 6 labs

Covers these lab items: Audio-visual aids; Effective sound system; Portable PA systems or megaphones for large group management; Public Address System

What it is used for

A public address system amplifies speech or audio for announcements, teaching, and group communication. Use suitable microphones, speakers, and volume settings for the venue.

How to use

1. Inspect the speakers, microphone, cables, connectors, and power supply.
2. Place speakers securely and position them to cover the intended listening area.
3. Connect equipment with power switched off and follow the system layout.
4. Switch on the system in the recommended order and start with low volume.
5. Test the microphone and adjust volume to achieve clear sound without feedback.
6. Switch off equipment, disconnect as instructed, and store cables neatly after use.

⚠ Safety

- Keep electrical connections dry and inspect cables for damaged insulation.
- Do not place speakers where they can fall or block walkways.
- Avoid excessive volume that may harm hearing or cause feedback.
- Turn power off before changing connections unless the equipment instructions state otherwise.

Care & storage

- Wipe equipment with a dry cloth and store microphones and cables safely.
