Thread Cutter

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 6 labs

Covers these lab items: Thread Clipper; Thread Cutter

What it is used for

A thread cutter is used to trim loose threads and excess thread ends during sewing and textile work. Use it carefully to make clean cuts without damaging the fabric.

How to use

1. Inspect the cutter for clean blades, smooth movement, and damage.
2. Hold the fabric steady and identify the thread to be trimmed.
3. Position the blades close to the loose thread without touching the fabric.
4. Cut the thread with a controlled movement.
5. Check that the fabric and nearby stitches remain undamaged.
6. Clean the blades and store the cutter safely after use.

⚠ Safety

- Keep fingers away from the sharp cutting edges.
- Do not cut threads while pulling the fabric toward your hand.
- Keep the cutter closed or covered when not in use.

Care & storage

- Remove thread scraps and store the cutter in a dry, safe place.
