Rolling Pin

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 5 labs

Covers these lab items: Polpat and Latan (Roller); Rolling pin; Rolling Pin & Board (Chakla-Belan)

What it is used for

A rolling pin is used to flatten and shape dough for cooking or baking. Use a clean, dry pin on a suitable work surface.

How to use

1. Inspect the rolling pin for cracks, splinters, or loose handles.
2. Wash and dry the rolling pin before preparing food.
3. Lightly flour the work surface or dough if the recipe requires it.
4. Place the dough on the surface and roll with even, controlled pressure.
5. Turn or reposition the dough to achieve the required thickness and shape.
6. Clean the rolling pin after use and allow it to dry fully.

⚠ Safety

- Keep fingers clear of pinch points near handles and board edges.
- Use the rolling pin only on a stable, clean surface.
- Do not use a cracked or splintered wooden pin for food preparation.

Care & storage

- Wash according to the material instructions and store completely dry.
