Applicator Brush

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 4 labs

Covers these lab items: Applicator Brush; Plastic applicators

What it is used for

An applicator brush is used to apply creams, gels, powders, or other beauty products in a controlled manner. Select a brush compatible with the product and treatment area.

How to use

1. Inspect the brush or applicator for cleanliness, loose bristles, and damage.
2. Choose an applicator suitable for the product and intended area.
3. Clean hands and prepare the treatment area according to salon procedure.
4. Take a small amount of product using the applicator without contaminating the container.
5. Apply the product evenly using gentle, controlled strokes.
6. Clean or dispose of the applicator as directed and store reusable tools hygienically.

⚠ Safety

- Use a clean applicator for each client and avoid sharing disposable brushes.
- Do not apply products near eyes or broken skin unless the product is intended for that use.
- Stop application if irritation occurs and follow the product instructions.

Care & storage

- Wash reusable brushes with a suitable cleaner, dry fully, and store in a clean container.
