Pattern Making Ruler

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 4 labs

Covers these lab items: Hip Curve; Scale Variety

What it is used for

To draw and measure garment curves and pattern lines using a pattern-making ruler. To improve pattern accuracy and maintain consistent measurements.

Main parts

- Curved ruler or hip curve
- Straight scale
- Measurement markings
- Edges and reference points

Before you start

1. Select the ruler shape suitable for the pattern line.
2. Check the markings for readability and the ruler for cracks or warping.
3. Place the pattern paper on a flat surface.
4. Keep a suitable pencil or fabric marker ready.

How to use

1. Identify the pattern points to be connected.
2. Align the ruler with the required measurements and curve.
3. Hold the ruler steady without covering the markings.
4. Draw the line smoothly along the edge.
5. Check the curve and dimensions against the pattern measurements.
6. Label the pattern line or measurement if required.

⚠ Safety

- Handle sharp ruler edges carefully.
- Keep cutting tools separate while marking.
- Store rulers flat to prevent bending.

Care & storage

- Wipe the ruler clean after use.
- Avoid bending or dropping it.
- Keep markings visible and store it in a safe place.

Common mistakes to avoid

- Using the wrong curve for the pattern.
- Misaligning reference points.
- Drawing while the ruler is moving.
- Ignoring measurement units or scale markings.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
