Peeler

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 3 labs

Covers these lab items: Peeler; Vegetable Peeler

What it is used for

To remove thin outer skins from vegetables or fruits during food preparation.

How to handle

- Inspect the peeler blade, handle, and joint for damage, rust, or looseness.
- Wash the produce and place it on a stable cutting board before peeling.
- Hold the produce securely and peel away from fingers and the body using controlled strokes.
- Keep fingers clear of the blade and use a stable grip, especially when peeling small pieces.
- Wash, rinse, and dry the peeler after use, taking care around the sharp edge.

Storage

- Store clean and dry in a designated kitchen drawer or utensil rack.
- Use a blade cover where available and keep it separate from loose items that could damage the edge.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
