Raking Needle

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 3 labs

Covers these lab items: Racking Needle; Raking Needle

What it is used for

To assist with raking, gathering, or arranging textile fibres or fabric during the relevant textile or handicraft process.

How to handle

- Inspect the needle for bending, rust, sharp damage, or loose attachment to its handle if fitted.
- Select the correct needle for the material and task, and secure the fabric or fibre workpiece before use.
- Guide the needle carefully through or along the material using controlled movements.
- Keep fingers clear of the needle point and do not force it through material that resists penetration.
- Clean the needle after use and account for it before leaving the workstation.

Storage

- Store in a labelled needle case or secure organiser when clean and dry.
- Keep the point covered and separate from loose textiles to prevent injury or damage.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
