Resistance Band

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 3 labs

Covers these lab items: Exercise Bands; Resistance Bands; Resistance Tubes

What it is used for

To support strength training, stretching, mobility, and rehabilitation exercises using elastic resistance.

How to handle

- Inspect the band or tube for cuts, cracks, thinning, damaged handles, or loose connectors before use.
- Select a resistance level appropriate for the exercise and the user's ability.
- Secure the band only to a suitable anchor and check that it cannot slip or release unexpectedly.
- Use controlled movements, maintain correct posture, and keep the band away from the face and eyes.
- Release tension gradually, stop if the band is damaged or causes pain, and wipe it clean after use.

Storage

- Store clean and dry away from direct sunlight, heat, and sharp objects.
- Keep bands loosely coiled without excessive stretching or twisting.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
