Bamboo Splitter

Category: **Hand Tools - Cutting & Shaping** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Bamboo Hand Splitter; Bamboo Splitter

What it is used for

To split bamboo into strips or smaller sections for craft, construction, and training activities.

How to handle

- Inspect the splitter for cracks, loose parts, and damaged cutting edges before use.
- Wear cut-resistant gloves and eye protection; secure the bamboo on a stable work surface.
- Position the bamboo correctly and keep hands away from the cutting edge and splitting path.
- Apply controlled force using the tool as designed; never direct the blade toward the body or other people.
- Remove bamboo splinters carefully and clean the tool after use.

Storage

- Clean and dry the splitter after use.
- Cover the cutting edge and store in a secure, dry tool cabinet away from children.
