Blackhead Remover

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Blackhead Remover

What it is used for

To assist with the controlled removal of blackheads by a trained beauty professional using an appropriate hygienic method.

How to handle

- Inspect the tool for damage and ensure it has been cleaned and disinfected according to its instructions.
- Clean the skin and hands; use gloves and suitable hygiene precautions where required.
- Use only gentle pressure on appropriate skin areas and follow the tool manufacturer's directions.
- Do not force extraction, puncture skin, or use on inflamed, infected, broken, or irritated areas.
- Stop immediately if pain, bleeding, or significant irritation occurs; clean and disinfect the tool after use.

Storage

- Dry the tool thoroughly after approved cleaning and disinfection.
- Store in a clean, covered container separate from used tools and personal items.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
