Call Bell

Category: **Hospitality & Housekeeping** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Call bell

What it is used for

To alert staff or request assistance using a manual or electronic call bell.

How to handle

- Inspect the bell, button, cable, or battery compartment for damage and ensure it is accessible to the intended user.
- For a manual bell, press or ring the mechanism as designed; for an electronic bell, press the call button and confirm the alert is received.
- Place the bell within easy reach and explain its operation to the user.
- Do not use the bell as a toy or repeatedly trigger alerts unnecessarily.
- Clean contact surfaces according to the facility's hygiene procedure and test functionality periodically.

Storage

- Wipe and dry the bell before storing; remove batteries for long-term storage if recommended.
- Keep in the designated clean area and protect electronic models from moisture and impact.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
