Can Opener

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Can opener

What it is used for

To open food cans safely while minimizing sharp edges and food contamination.

How to handle

- Inspect the opener, cutting wheel, handle, and turning mechanism for damage or residue.
- Wash hands and ensure the can and opener are clean before use.
- Position the cutting wheel securely on the can rim and operate the handle steadily according to the design.
- Handle the lid carefully because its edges may be sharp; do not touch the cut edge with bare fingers.
- Transfer food using a clean utensil and wash the opener after use.

Storage

- Clean and dry the opener thoroughly to prevent residue buildup and corrosion.
- Store in a clean, dry utensil drawer with the cutting edge protected.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
