Chikki Cutter

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Hand Operated Chikki Slicer (Roller), cutter

What it is used for

To slice prepared chikki or similar brittle confectionery into uniform portions using a hand-operated roller cutter.

How to handle

- Inspect the cutter, roller, handle, guards, and cutting surface for damage and cleanliness.
- Place the equipment on a stable, clean, food-safe work surface and secure it as designed.
- Use the cutter only with prepared material suitable for the machine; keep fingers clear of the roller and cutting path.
- Operate the handle steadily and never push material by hand near moving cutting parts.
- Stop before clearing jams or cleaning, then wash and sanitize food-contact parts according to the manufacturer's instructions.

Storage

- Clean, sanitize, and dry all food-contact parts before storage.
- Store the cutter in a dry, covered area with moving and cutting parts protected.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
