Foot Scraper

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Foot Scraper

What it is used for

To gently remove rough, dead skin from the feet during personal care or a supervised pedicure.

How to handle

- Inspect the scraper surface and handle for cracks, corrosion, or damage; clean and disinfect it before use.
- Soak or soften the feet as appropriate and ensure the skin is intact before starting.
- Use gentle strokes on rough areas only; avoid excessive pressure and do not scrape cuts, inflamed skin, or infected areas.
- Stop if pain, bleeding, or irritation occurs and do not share the tool without proper reprocessing.
- Clean and disinfect the scraper after use according to its material and instructions.

Storage

- Dry the scraper completely after cleaning and disinfection.
- Store in a clean, covered container separate from used personal-care tools.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
