Grey Scale

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Greyscale

What it is used for

To assess or compare grey-scale shades for colour-change or staining evaluation in textile testing, according to the applicable test method.

How to handle

- Inspect the grey-scale cards or strips for fading, stains, tears, and surface damage before use.
- Confirm whether the scale is intended for colour change or staining and follow the relevant test standard.
- View the reference scale and test specimen under the specified lighting and viewing conditions.
- Compare the specimen with the scale carefully and record the rating according to the approved method.
- Avoid touching the comparison surfaces and keep the scale away from direct sunlight and contamination.

Storage

- Keep the grey scale clean, dry, and protected from light exposure when not in use.
- Store flat in its original protective case away from chemicals, moisture, and abrasion.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
