Laminate Cutter

Category: **Hand Tools - Cutting & Shaping** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Sun mica Cutter

What it is used for

To cut or trim laminate sheets, such as sunmica, to the required size using a suitable laminate cutter.

How to handle

- Inspect the cutter blade, guide, handle, and adjustment mechanism for damage or looseness.
- Measure and mark the laminate accurately and secure the sheet on a stable work surface.
- Wear eye protection and suitable cut-resistant gloves; keep fingers clear of the blade path.
- Align the cutter with the marked line and make controlled cuts according to the tool design without forcing the blade.
- Deburr or smooth edges using a suitable method and clean the tool after use.

Storage

- Clean the cutter and protect the blade with its guard or cover.
- Store in a secure, dry tool cabinet with the cutting edge inaccessible to accidental contact.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
