Loop Turner

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Loop turner

What it is used for

To turn narrow fabric tubes, straps, and sewn loops right-side out during sewing and garment construction.

How to handle

- Inspect the loop turner hook, latch, shaft, and handle for damage or sharp burrs.
- Select a loop turner suitable for the width and fabric type of the sewn tube.
- Insert the tool gently into the tube and attach the fabric edge securely to the hook or latch.
- Pull the tool through slowly while guiding the fabric to prevent snagging, tearing, or overstretching.
- Release the fabric carefully and clean the tool after use.

Storage

- Wipe the tool clean and dry after use.
- Store in a sewing-tool case with the hook protected to prevent bending and accidental injury.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
