Pizza Cutter

Category: **Food Processing & Kitchen** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Pizza cutter

What it is used for

To cut pizza or similar prepared food into portions using a rolling or handled cutting wheel.

How to handle

- Inspect the cutting wheel, handle, guard, and axle for damage, looseness, or food residue.
- Wash hands and clean the cutter before food preparation or service.
- Place the pizza on a stable, suitable cutting surface and hold the handle firmly with fingers away from the wheel.
- Roll the cutter through the food using controlled pressure and keep the cutting path clear of hands and other people.
- Clean and sanitize the cutter after use, taking care when handling the sharp wheel.

Storage

- Clean, sanitize, and dry the cutter thoroughly after use.
- Store with the wheel guarded or covered in a clean, dry utensil drawer or holder.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
