Poultry Feeder

Category: **Animal Husbandry & Dairy** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Circular Feeder; Linear Feeder

What it is used for

To provide poultry birds with feed in a clean, accessible, and controlled manner using a circular or linear feeder.

How to handle

- Inspect the feeder body, edges, supports, and hanging or mounting parts for cracks, sharp edges, or instability.
- Clean and dry the feeder before filling and use feed appropriate for the birds' age and type.
- Position the feeder at a suitable height and spacing so birds can access feed without crowding or excessive spillage.
- Fill to the recommended level and monitor feed condition, moisture, pests, and contamination regularly.
- Remove spoiled feed and clean the feeder on the farm's hygiene schedule; avoid placing it where litter or waste can contaminate feed.

Storage

- Empty, wash, and dry the feeder before long-term storage.
- Store in a clean, dry, pest-protected area away from chemicals and animal waste.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
