Safety Station

Category: **Safety & PPE** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Lab Safety/Emergency Booth

What it is used for

To provide quick access to designated laboratory emergency equipment and safety supplies during an incident.

How to handle

- Identify the station's contents, such as first-aid supplies, eyewash, safety shower, fire equipment, or emergency instructions, according to its actual setup.
- Keep the station clearly marked, unobstructed, and accessible at all times.
- Check inspection tags, expiry dates, seals, pressure indicators, and supply levels according to the site's schedule.
- Use each item only for its intended purpose and follow posted instructions and the laboratory emergency plan.
- Raise the alarm and contact trained emergency personnel when required; report missing, used, expired, or damaged supplies promptly.

Storage

- Return supplies to their labelled positions and keep emergency access routes clear.
- Maintain a documented inspection schedule and replenish or service items according to site policy and manufacturer instructions.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
