Shirodhara Equipment

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Shirodhara Stand equipment; Shirodhara Sweda

What it is used for

To deliver a controlled stream of liquid during a supervised Shirodhara wellness treatment using the designated stand and vessel.

How to handle

- Inspect the stand, vessel, tubing, flow-control parts, and fasteners for cracks, leaks, instability, or contamination.
- Set the equipment on a level surface and secure the stand and vessel according to the manufacturer's instructions.
- Use only approved, suitable liquids and check temperature carefully before treatment to avoid burns or irritation.
- Ensure the client is positioned comfortably and the procedure is performed by a trained practitioner with appropriate consent and hygiene precautions.
- Control the flow and duration according to the treatment protocol; stop immediately if discomfort, dizziness, skin irritation, or equipment instability occurs.

Storage

- Drain the vessel and clean and dry all liquid-contact parts according to the manufacturer's instructions.
- Store disassembled components in a clean, dry area and protect the stand and vessel from impact or contamination.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
