Sprayer Nozzle

Category: **Agriculture & Gardening** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Nozzle set

What it is used for

A sprayer nozzle controls the direction, flow, and spray pattern of liquid. Select the correct nozzle for the sprayer and intended application.

How to use

1. Check the nozzle for cracks, blockage, worn threads, or damaged seals.
2. Switch off and depressurize the sprayer before fitting or removing the nozzle.
3. Select a compatible nozzle suitable for the liquid and required spray pattern.
4. Fit the nozzle securely without overtightening the connection.
5. Test the spray in a safe, designated area and adjust the pattern if permitted.
6. Depressurize the sprayer and clean the nozzle after use.

⚠ Safety

- Wear appropriate gloves, goggles, and other PPE required for the sprayed liquid.
- Never point the nozzle at people, animals, or electrical equipment.
- Never clear a blocked nozzle by blowing through it with your mouth.

Care & storage

- Clean using the manufacturer's recommended method and store nozzles in a dry container.
