Walking Cane

Category: **Medical, Healthcare & First Aid** Type: **Short SOP** Priority: **Medium** 2 labs

Covers these lab items: Cane

What it is used for

A walking cane provides additional support and balance while walking. Choose the correct height and use it according to healthcare professional guidance.

How to use

1. Inspect the cane, handle, shaft, and rubber tip for damage.
2. Adjust the cane to the recommended height and secure any adjustment lock.
3. Hold the handle firmly and stand upright before beginning to walk.
4. Move the cane forward a short distance and keep its tip firmly on the ground.
5. Step forward carefully, following the walking pattern recommended by your healthcare professional.
6. Turn slowly, maintain balance, and ask for assistance if needed.
7. After use, place the cane securely within easy reach.

⚠ Safety

- Do not use a cane with a loose handle or worn rubber tip.
- Avoid slippery floors and uneven surfaces whenever possible.
- Seek assistance if you feel dizzy, weak, or unstable.

Care & storage

- Clean the handle and shaft regularly and replace worn rubber tips promptly.
