Baggage Cart

Category: **Hospitality & Housekeeping** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Guest service desks, baggage carts, and luggage storage systems

What it is used for

A baggage cart transports luggage safely between reception areas, rooms, and storage locations. Load it evenly and follow safe handling practices to protect guests and staff.

How to use

1. Inspect the cart, wheels, handles, brakes, and platform for damage.
2. Confirm the route is clear and the cart can pass through doorways.
3. Place heavier luggage at the bottom and distribute the load evenly.
4. Secure bags to prevent slipping and keep the load within capacity.
5. Push the cart slowly while watching corners, doorways, and nearby people.
6. Apply brakes before loading or unloading if the cart has brakes.
7. Return the cart to its designated storage area after use.

⚠ Safety

- Do not overload the cart or block the operator's view.
- Keep hands and feet away from wheels and moving parts.
- Use team assistance for heavy or awkward luggage.
- Never leave a loaded cart unattended on a slope.

Care & storage

- Clean the platform and handles regularly and report damaged wheels or brakes.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
