Bamboo Craft Tool

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Equipment used for developing bamboo products

What it is used for

Bamboo craft tools cut, split, shape, smooth, or join bamboo for craft products. Select the correct tool for the task and secure bamboo before working.

How to use

1. Inspect each tool's handle, cutting edge, fasteners, and moving parts for damage.
2. Select the appropriate tool for cutting, splitting, shaping, or smoothing bamboo.
3. Wear suitable eye protection and gloves appropriate to the tool and task.
4. Secure the bamboo on a stable work surface before cutting or shaping.
5. Work with controlled strokes and keep hands clear of cutting paths.
6. Remove splinters and offcuts using a safe method after the tool stops.
7. Clean the tools and return them to their designated storage.

⚠ Safety

- Keep sharp edges and pointed tools away from fingers and other people.
- Do not hold small bamboo pieces in the cutting path by hand.
- Wear a suitable dust mask when sanding or creating fine bamboo dust.

Care & storage

- Remove bamboo dust, dry metal parts, and store sharp tools with protective covers.
