Bathing Aid

Category: **Medical, Healthcare & First Aid** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Bathing aids (e.g., shower chair, sponge, no-rinse wipes)

What it is used for

Bathing aids support personal hygiene for people who need assistance with washing. Choose the appropriate aid and maintain privacy, comfort, and fall prevention throughout use.

How to use

1. Select a bathing aid suitable for the person's needs and mobility.
2. Inspect shower chairs, handles, non-slip feet, and other parts for damage.
3. Prepare a warm, safe area and place supplies within easy reach.
4. Explain each step, obtain consent, and protect the person's privacy.
5. Use the aid according to its instructions and provide support as needed.
6. Clean the skin gently, avoiding excessive rubbing and sensitive areas.
7. Dry the person, clean reusable aids, and store supplies safely.

⚠ Safety

- Never leave a person at risk of falling unattended during bathing.
- Check water temperature before contact to prevent burns.
- Use no-rinse wipes and cleaning products according to their instructions.
- Keep floors dry where possible and use non-slip support.

Care & storage

- Clean reusable aids after every use and discard single-use wipes appropriately.
