Bill Hook

Category: **Hand Tools - Cutting & Shaping** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Bill hook

What it is used for

A bill hook cuts and trims branches, brush, and suitable plant material. Use it only for appropriate cutting tasks with a stable work area and controlled strokes.

How to use

1. Inspect the blade, handle, and attachment for cracks, looseness, or rust.
2. Wear eye protection, sturdy footwear, and suitable gloves.
3. Clear the working area and ensure other people remain well away.
4. Secure the material where possible and identify a clear cutting direction.
5. Grip the handle firmly and make controlled cuts away from your body.
6. Place the tool down safely before moving material or clearing debris.
7. Clean the blade and store the bill hook with its edge protected.

⚠ Safety

- Keep the curved blade away from hands, legs, and other people.
- Never swing the tool near another person or work in a crowded area.
- Do not use a damaged handle or loose blade.
- Use additional supervision and avoid overhead cutting.

Care & storage

- Clean and dry the blade after use and store it in a secure sheath.
