Body Reformer

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Can float body reformer

What it is used for

A body reformer is a fitness device designed to support selected body-conditioning or resistance exercises. Identify its specific design and follow the supplied instructions before use.

How to use

1. Inspect the frame, straps, handles, connectors, and support surfaces for damage.
2. Place the equipment on a stable, non-slip surface with enough clear space.
3. Read the operating instructions and select an appropriate exercise setting.
4. Check that all straps, supports, and adjustment locks are secured.
5. Perform slow, controlled movements within a comfortable range of motion.
6. Stop if the equipment shifts or movement causes discomfort.
7. Clean contact surfaces and return adjustable parts to their safe position.

⚠ Safety

- Use the device only for its intended purpose and within its rated limits.
- Keep fingers away from moving joints, tension straps, and pinch points.
- Use instructor supervision when learning unfamiliar exercises.
- Stop immediately if you experience pain, dizziness, or instability.

Care & storage

- Wipe contact surfaces after use and store the equipment clean and dry.
