Cash Register

Category: **Retail, Logistics & Warehouse** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Cash Register or Cash Drawer

What it is used for

A cash register records sales, calculates totals, and stores cash securely during transactions. Use authorized access and follow the workplace procedure for every sale and cash movement.

How to use

1. Inspect the register, display, keypad, receipt printer, and cash drawer.
2. Log in using your assigned credentials or authorized access method.
3. Enter each item or transaction accurately and verify the displayed total.
4. Confirm the payment method and enter the amount received correctly.
5. Issue the receipt and return the correct change when applicable.
6. Close the transaction and secure the cash drawer.
7. Reconcile the recorded totals and hand over cash according to workplace rules.

⚠ Safety

- Never share passwords or leave an unlocked register unattended.
- Verify cash amounts carefully and follow procedures for refunds or voids.
- Keep cash drawers closed when not in use and report discrepancies promptly.

Care & storage

- Clean the keypad and display gently and report printer, drawer, or software faults.
