Category: **Sports & Physical Education** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Gym Bench

What it is used for

An exercise bench supports strength training and other fitness exercises. Check its stability and adjust it correctly before placing weights or body weight on it.

How to use

1. Inspect the bench frame, padding, feet, adjustment pins, and fasteners for damage.
2. Place the bench on a flat, nonslip floor.
3. Adjust the backrest or seat to the required position and secure the locking pins.
4. Check that the bench remains stable before starting the exercise.
5. Use correct lifting technique and position your body securely on the bench.
6. Keep weights controlled and return them to their designated storage after use.
7. Wipe down the bench and report any loose or damaged parts.

⚠ Safety

- Do not exceed the bench's rated weight capacity.
- Never use a bench with loose fasteners, unstable feet, or damaged padding.
- Use a spotter when required for heavy lifting.
- Keep hands clear of adjustment hinges and locking mechanisms.

Care & storage

- Clean the padding and frame after use and inspect fasteners regularly.
