Magnifier Lamp

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Desk Light and Magnifier

What it is used for

A magnifier lamp combines illumination and magnification for close visual work such as inspection or beauty treatments. Position the lamp securely and adjust lighting to suit the task.

How to use

1. Inspect the lens, lamp, arm joints, base, cable, and switch for damage.
2. Place the lamp on a stable surface or secure its mounting clamp.
3. Connect it to the specified power source and switch it on.
4. Adjust the arm and lens to the required working distance and angle.
5. Set brightness and magnification for comfortable, clear viewing.
6. Perform the task while avoiding contact with the hot lamp or lens housing.
7. Switch off and disconnect power before cleaning or repositioning the unit.

⚠ Safety

- Do not look directly into the light source at close range.
- Keep electrical connections away from water and cosmetic liquids.
- Avoid overextending the arm or placing the lamp where it may fall.
- Do not use the lamp if its cable, lens, or mounting is damaged.

Care & storage

- Clean the lens with approved lens material and wipe the housing with power disconnected.
