Oil Pouring Vessel

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Kindi/kumbhika for poring oil

What it is used for

An oil pouring vessel, such as a kindi or kumbhika, holds and dispenses oil in controlled quantities for suitable traditional or wellness applications. Clean the vessel and pour carefully to prevent spills and contamination.

How to use

1. Inspect the vessel, handle, spout, and opening for cracks or sharp edges.
2. Wash and dry the vessel according to the material and intended use.
3. Fill it with the required oil without exceeding a safe handling level.
4. Hold the vessel firmly and position the spout over the intended container or application area.
5. Pour slowly and control the flow to avoid splashing or overflow.
6. Close or cover the vessel after pouring and wipe any spilled oil immediately.
7. Empty, clean, and store the vessel according to its intended use.

⚠ Safety

- Keep oil away from flames and hot surfaces if it is flammable.
- Avoid spills that may make floors slippery.
- Use clean oil and a clean vessel for applications requiring hygiene.
- Do not use a cracked vessel or one with contaminated residue.

Care & storage

- Clean after use, dry thoroughly, and store covered in a clean location.
