Presentation Remote

Category: **Audio-Visual, Camera & Media** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Presentation Remote

What it is used for

A presentation remote allows the presenter to advance slides and control compatible presentation functions from a distance. Check device compatibility and test the controls before the presentation.

How to use

1. Inspect the remote, buttons, battery compartment, and receiver if supplied.
2. Install the correct batteries or charge the device as instructed.
3. Connect the receiver or pair the remote with the presentation device.
4. Open the presentation and test slide advance, back, and pointer functions if available.
5. Stand within the specified operating range and control the slides during use.
6. Switch off the remote after the presentation and disconnect the receiver if required.
7. Store the remote and receiver together for the next use.

⚠ Safety

- Use only the specified battery type and correct polarity.
- Keep small batteries away from children and dispose of them properly.
- Avoid exposing the remote to liquids, excessive heat, or impact.
- Do not point a laser pointer into anyone's eyes.

Care & storage

- Wipe the remote with a dry or approved cloth and remove batteries for long-term storage when recommended.
