Punch Needle

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Punch Needle

What it is used for

A punch needle creates loops or stitches in fabric for embroidery and textured textile designs. Thread the needle correctly and use a suitable fabric held securely in an embroidery hoop or frame.

How to use

1. Inspect the punch needle, handle, threading channel, and tip for damage.
2. Select compatible yarn or thread and suitable fabric for the needle size.
3. Secure the fabric tightly in a hoop or frame.
4. Thread the needle according to the tool instructions and adjust the yarn flow.
5. Hold the tool at the recommended angle and punch evenly into the fabric.
6. Follow the design pattern and maintain consistent stitch spacing and depth.
7. Finish the yarn securely, release the fabric, and clean the tool after use.

⚠ Safety

- Keep the needle tip pointed away from fingers and body.
- Do not use a bent or damaged needle.
- Keep yarn and loose materials clear of walkways and moving equipment.
- Store the needle with its protective cover when available.

Care & storage

- Remove fibres from the needle and store it dry in a protective case.
