Push-up Bar

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Push-up Bars

What it is used for

Push-up bars provide raised hand grips for push-ups and other suitable bodyweight exercises. Check the bars for stability and use controlled movements on a nonslip surface.

How to use

1. Inspect both bars, grips, bases, and joints for damage or looseness.
2. Place the bars on a flat, nonslip surface with sufficient spacing.
3. Confirm that both bars remain stable under light pressure before use.
4. Warm up wrists, shoulders, and arms before exercising.
5. Grip the bars securely and perform push-ups with controlled body alignment.
6. Avoid excessive range or repetitions beyond your ability.
7. After use, inspect the bars and return them to storage.

⚠ Safety

- Do not use cracked, loose, or unstable push-up bars.
- Keep the floor dry and clear of obstacles.
- Avoid locking joints forcefully or allowing the bars to slide during exercise.
- Stop if pain, dizziness, or unusual discomfort occurs.

Care & storage

- Wipe grips and bases after use and store the bars in a dry place.
