Safe Deposit Box

Category: **Hospitality & Housekeeping** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Safe deposit boxes

What it is used for

A safe deposit box provides controlled storage for guests' or authorized users' valuables. Follow the property's access, identification, key control, and recordkeeping procedures for every transaction.

How to use

1. Inspect the safe, lock, hinges, keypad, keys, and access area for visible damage.
2. Verify the user's identity and authorization according to the property procedure.
3. Explain the approved deposit and retrieval process without requesting disclosure of the safe combination.
4. Assign or open the designated box using the authorized access procedure.
5. Confirm the box is secured and provide the required receipt or access instructions.
6. For retrieval, re-verify authorization and follow the required opening and recordkeeping steps.
7. Close and lock the box, secure keys, and record any faults or irregularities.

⚠ Safety

- Never disclose combinations, master keys, or access codes to unauthorized people.
- Do not open a user's box without proper authorization and required verification.
- Keep keys and access records secured and restrict access to authorized staff.
- Report suspected tampering, lost keys, or access discrepancies immediately.

Care & storage

- Clean external surfaces with approved products and check locks and access controls regularly.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
