Sewing Machine Attachment

Category: **Sewing, Textile & Handicraft** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Attachments for sewing machine

What it is used for

Sewing machine attachments provide specialized functions such as hemming, gathering, zipper insertion, or edge finishing. Confirm attachment compatibility and install it according to the sewing machine instructions.

How to use

1. Switch off the sewing machine and disconnect power before changing attachments.
2. Identify the attachment type and confirm compatibility with the machine model.
3. Remove the existing presser foot or accessory using the approved procedure.
4. Fit the attachment securely and check needle clearance by turning the handwheel manually.
5. Adjust stitch settings, needle position, and thread tension as recommended.
6. Test the attachment on scrap fabric and inspect stitch quality.
7. Switch off the machine, remove the attachment if needed, and clean the work area.

⚠ Safety

- Keep fingers away from the needle and moving parts during operation.
- Never change attachments while the machine is powered.
- Use the correct needle and settings for the attachment and fabric.
- Do not operate if the needle strikes the attachment.

Care & storage

- Remove lint and thread debris after use and store attachments in labelled containers.
