Skipping Rope

Category: **Sports & Physical Education** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Skipping Ropes

What it is used for

A skipping rope supports cardiovascular fitness, coordination, and footwork training. Select an appropriate rope length and exercise on a clear, nonslip surface with controlled movements.

How to use

1. Inspect the rope, handles, bearings, and adjustment mechanism for wear or damage.
2. Adjust the rope length according to the user's height and the manufacturer's guidance.
3. Choose a flat, nonslip surface with sufficient overhead and surrounding clearance.
4. Warm up and hold one handle securely in each hand.
5. Rotate the rope using controlled wrist movements and begin with small, comfortable jumps.
6. Maintain a steady rhythm and stop to rest when necessary.
7. After use, inspect the rope and store it without tight kinks.

⚠ Safety

- Keep people, pets, and objects outside the rope's rotation area.
- Wear suitable footwear and avoid wet or slippery surfaces.
- Begin at a manageable pace and stop if pain, dizziness, or unusual breathlessness occurs.
- Do not use a frayed or damaged rope.

Care & storage

- Wipe handles and rope after use and store them in a dry, untangled condition.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
