Sports Ring

Category: **Sports & Physical Education** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Flat Ring

What it is used for

A flat sports ring marks a target, boundary, or movement position during physical education and training activities. Place rings securely and arrange them to suit the activity and available space.

How to use

1. Inspect the ring for cracks, sharp edges, deformation, or slippery surfaces.
2. Choose a flat, clear area suitable for the planned activity.
3. Place the ring securely on the ground at the required position.
4. Arrange additional rings with sufficient spacing to prevent collisions.
5. Explain the activity and demonstrate how participants should move around or through the ring.
6. Monitor the activity and reposition rings if they move or create hazards.
7. Collect, clean, and store the rings after use.

⚠ Safety

- Do not use broken or sharp-edged rings.
- Keep rings away from walkways and emergency exits unless they are part of a controlled activity.
- Prevent participants from jumping onto unstable or stacked rings.
- Maintain adequate spacing between participants.

Care & storage

- Wipe rings clean and store them flat in a dry, designated area.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
